Follow Lott St to the end, which is Bustleton Ave. Turn right on Bustleton Ave and go one block to Bowler St (next light). Turn right on Bowler St and the building and entrance is on your left.

From Roosevelt Blvd southbound... Use the outside lanes and turn right at Conwell St. (This is the first light after Red Lion Rd). Turn left at President St which will be at the first STOP sign. Follow President St to the end and turn left on Wisteria St. Go to the STOP sign and turn left on Bowler St. The building and entrance is on your right.

President's Report

October, 1998

by Tom Burke

It's election time again and we will be choosing the officers for CESOP for the upcoming year. At the last meeting we tabled the appointment of an election committee until the October 15 meeting. This is to give more members a chance to participate in the election process.

As of right now, I am undecided as to whether I want to run for another term. I am strongly leaning towards not seeking reelection. The reason for this is that I am not getting adequate help with various items that need to be done each month. Since Lee Le'Mon has moved away, my workload has increased to the point where the pleasure has become work.

I invite anyone interested in seeking a position on the executive board to come to the October 15 meeting and let your intentions be known.

Remember that our monthly business meetings are now held on the second Thursday of each month and we no longer meet at St Asaph's Church. Right now, all business meetings will be held at the 7th Police District located at 1701 Bowler St (Bustleton Ave & Bowler St). The business meetings start at 7:30 PM.

We are still looking for a place to meet that would be convenient to most members. If you know of such a location, please let us know.

The next workshop will be held on Saturday, October 10. This workshop will be a discussion on GAMES for your PC. Your host will be John Lavelle and it will begin at 11:00 AM. Location for this workshop is 1701 Bowler St. (see the inset on the left for directions).

Saturday, October 16 will be the next the Computer Solutions Workshops. This will start at 10:00 AM and also be held at 1701 Bowler St.
